ABSTRACT

The tenth volume in a 10-volume report on the historical development (1966-1973) of the 8 administrative Area Offices of the Indian Health Service (IHS) Mental Health Programs, this volume constitutes the Index for the entire report. Divided into two non-duplicating parts, this index includes a Subject Index and a Personal Names Index. References to individuals mentioned by name anywhere in the eight reports are presented in the Personal Names Index, while all references to geographic locations, service units, activities, programs, mental health topics or other content are presented in the Subject Index. The Subject Index topics are alphabetized via key words with articles and extraneous words left out, and headings are provided for a number of special lists. For example, Tribal Mental Health Programs, Clinics, Community Mental Health Centers, and Hospitals collect all references to each of these wherever mentioned. North American Indian Tribes, Eskimos, Pueblos, and Reservations, similarly, collect all references to any of these groups. Bureau of Indian Affairs Schools, Public Schools, Parochial Schools, Colleges and Universities collect all references to these. The heading Publications and Reports collects all material quoted or referenced in any section of the report. The two indexes are cross referenced so that a specific Service Unit is listed both alphabetically and geographically under its Area Office. (JC)

Documents acquired by ERIC include many informal unpublished materials not available from other sources. ERIC makes every effort to obtain the best copy available. Nevertheless, items of marginal reproducibility are often encountered and this affects the quality of the microfiche and hardcopy reproductions ERIC makes available via the ERIC Document Reproduction Service (EDRS). EDRS is not responsible for the quality of the original document. Reproductions supplied by EDRS are the best that can be made from the original.

Indian Health Service

Prepared by

Dianne Kelso, M.L.S. and Carolyn L. Attneave, Ph.D.

Department of Psychology, University of Washington

ACKNOWLEDGEMENTS

This index was prepared fo facilitate the use of the Area Reports and Overview of IHS Mental Health Service programs, 1966-1973, prepared by Carolyn L. Attneave, Ph.D., and Morton Beiser, M.D., while they were part of the faculty of the Department of Behavioral Sciences, Harvard School of Public Health. Dr. Beiser, who is now on the staff of the Department of Psychiatry of the Medical School at the University of British Colombia, Vancouver, B.C., has been helpful in reviewing the format of the index and in checking for errors of omission and commission. Dianne Kelso, M.L.S., Research Associate with the American Indian Mental Health Project, University of Washington, has developed the overall format and the topical index, as well as supervising the work of a number of assistants. Wayne Fulton, Laura Baxter, and Dennis Waggoner assisted in detail work of the index, particularly those portions pertaining to names of persons and geographical locations. Sandra Lee was particularly responsible for the final typing of this material and its proof reading.

DIRECTIONS TO THE USER

In order to make this index maximally useful the reader might like to know in advance the following principles that have been used in its construction.

The index is in two non-duplicating parts: a Subject Index and a Personal Names Index. References to individuals mentioned by name anywhere in the reports can be found in the Personal Names Index, beginning on page 88, but will not be listed by name in the Subject Index. All references to geographic locations, service units, activities, programs, and mental health topics or other content will be found in the Subject Index.

In the Subject Index topics have been alphabetized by the key word, with articles, "the," "a," and other non-specific words omitted. Headings are provided for a number of special lists that may be desired: Tribal Mental Health Programs, Clinics, Community Mental Health Centers, Hospitals, collect all references to these wherever they are mentioned. North American Indian Tribes, Eskimos, Pueblos, and Reservations, similarly collect all references to any of these groups. BIA Schools, Public Schools, Parochial Schools, Colleges and Universities collect all references to these. The heading Publications and Reports collects all material quoted or referred to in any section of the material.

Liberal use of cross references direct the reader to these or other entries, as well as to related topics wherever such interests could be anticipated. Most of these references collected under a generic heading also appear alphabetically in the index.

Anyone desiring to trace mental health activities pertaining to a specific Service Unit will find that Service Unit listed in its alphabetical place, as well as a listing of all Service Units in each Area collected under that Area entry. For example, Pine Ridge and Clinton Oklahoma Service Units will be found in the alphabetical list and Pine Ridge is also listed under Aberdeen Area, Clinton under Oklahoma Area.

Any readers discovering errors that should be corrected will please write to the authors at the address below:
